

# Hornsby Junction Remodelling and Commuter Car Park

## COMMUNITY NOTIFICATION

September 2016

The Hornsby Junction Remodelling and Commuter Car Park includes building a new multi-storey commuter car park at Hornsby Station and upgrading rail infrastructure in the area to increase the capacity and reliability of the T1 North Shore Line.

This project is being delivered by the Novo Rail alliance on behalf of Transport for NSW.

### Night time weekend work – Friday 23 September to Sunday 9 October

Night work to locate underground services within the rail corridor will be carried out at Hornsby Station over the following three weekends: **Friday 23 to Sunday 25 September, Friday 30 September to Sunday 2 October** and **Friday 7 to Sunday 9 October**. Work will be undertaken at night between **6pm and 8am** on these weekends and activities will include:

- use of a sucker truck to remove ballast (rocks and gravel around the rail line) in identified search areas
- use of mobile lighting towers to illuminate work areas at night
- utility vehicles in and around the rail corridor

To ensure the safety of customers and staff, this work will be completed in the evening when fewer trains are operating.

### What you may notice

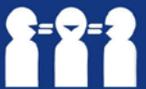

Some of this work may be noisy. However we will take every possible step to minimise noise such as switching off equipment when it is not in use and regular noise monitoring will be undertaken.

### Traffic and pedestrian changes

**Approximately five car parking spaces will be unavailable in the George Street commuter car park during these times.** This is to allow room for a sucker truck that will be used as part of the work being carried out. Access to the car park will be maintained at all times.

Workers and vehicles will access the rail corridor via gates at Government Road, Hornsby Street, Railway Parade and the George Street commuter car park. Traffic controllers and signage will be in place to direct motorists and pedestrians. Please follow directions and proceed carefully.

Thank you for your patience and cooperation during this important work.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call the Transport Projects Division on **(02) 9200 0200**. The interpreter will then assist you with translation.
