This E57 Community Consultation Report provides a summary of consultation undertaken in accordance with Condition of Approval (CoA) E57 with respect to Out-of-hours Work (OOHW) activities proposed at the Footbridge St Marys site.

OOHW is required to carry out activities within the rail corridor, which can only occur during a scheduled Sydney Trains trackwork period. An OOHW application has been submitted to the Project Environmental Representative (ER) for approval before the work commences. The application includes a detailed outline of the construction activities, methodology, assessment of potential noise impacts, and a schedule of the required works.

The OOHW application will be reviewed and endorsed by the Sydney Metro Director of Project Communications and the Project Environmental Representative prior to works commencing.

1.1 OOHW activities include.

- Installation of services and fit out of the footbridge (new concourse) and Sydney Trains building
- Excavation, material movement and landscaping in the Northern Plaza and Harris Street
- Plant demobilisation and site reinstatement
- Harris St Compound (32-34 Harris St) will be utilised to support the above activities.

1.2 Work period.

The proposed works are scheduled to take place during the following periods:

From 7am to 3pm, Saturday 2 May, 9 May, 16 May and 23 May 2026.

2. Conditions of Approval E57 - Community Consultation on Respite

Condition of Approval E57 states: To undertake out-of-hours work outside the work hours specified under Condition E38, appropriate respite periods for the out-of-hours work must be identified in consultation with the community at each affected location on a regular basis. This consultation must include (but not be limited to) providing the community with:

- (a) a progressive schedule for periods no less than three (3) months, of likely out-of-hours work;
- (b) a description of the potential work, location, and duration of the out-of-hours work;
- (c) the noise characteristics and likely noise levels of the work; and
- (d) likely mitigation and management measures which aim to achieve the relevant noise management levels (NMLs) under Condition E43 (including the circumstances of when respite or relocation offers will be available and details about how the affected community can access these offers).

The outcomes of the community consultation, the identified respite periods and the scheduling of the likely out-of-hour work must be provided to the ER, EPA and the Planning Secretary prior to the out-of-hours work commencing.

Note: Respite periods can be any combination of days or hours where out-of-hours work would not be more than 5 dB(A) above the RBL at any residence.

Notification - St Marys Station footbridge - Specific Notification for OOHW in May 2026

Sydney Metro – Western Sydney Airport

Notification – St Marys Station footbridge

May 2026

Transport for NSW is delivering a new footbridge and northern plaza at St Marys Station as part of the Sydney Metro–Western Sydney Airport project

Work activities in May

- installing steel, cladding, glass panels and roofing for the new footbridge
- building and fitting out new lifts and escalators
- installing stairs for the new northern entrance
- resurfacing station platforms and installing tactile markers
- reducing the size and changing the type of work area fencing on station platforms
- footpath, landscaping and pavement work on Harris Street and near the multi-storey car park
- installing hydraulic, electrical, mechanical, fire and other utility services
- constructing the new Sydney Trains building
- delivering and removing materials and equipment via Hobart Street, Harris Street, Glossop Street, and Forrester Road.

What to expect

- two accessible parking spaces in the multi-storey commuter car park remain unavailable to provide safe space for work activities in the new plaza area
- up to 16 parking spaces will be temporarily unavailable on Harris Street for weekend work, night work and deliveries
- construction equipment in use will include excavators, saw cutters, trucks, cranes, concrete pumps, light towers, and tools.

Planned night and weekend work

In **May**, work on the new footbridge and station platforms will take place continuously during the following planned Sydney Trains trackwork weekend:

- **1am Saturday 30 May to 7am Monday 1 June.**

Subject to approvals, we will be working extended hours from:

- **7am to 3pm** on the following **Saturdays, 2 May, 9 May, 16 May and 23 May.**
- **6pm to 6am** between **Friday 1 May and Saturday 2 May** and from **Monday 4 May to Saturday 9 May** to install platform tactile markers.

Building material and equipment will be delivered to our work areas between **6pm and 6am** on **weeknights from Wednesday 20 May to Friday 29 May.**

Our standard working hours are **7am to 6pm, Monday to Friday**, and **8am to 1pm** on **Saturdays.**

Managing our impacts

We aim to minimise impacts on the community and environment by:

- installing safety and security fencing around our work areas
- reducing noise by turning off machinery when not in use
- managing vehicle and pedestrian access with traffic control and signs.

Planned work outside of standard hours over the next three months

Planned activities (subject to approval) include excavation, structural steel, concrete, electrical and hydraulic, asphalt and landscaping work on the following dates:

- Saturday 18 July to Monday 20 July
- Saturday 25 July to Monday 27 July
- Saturday 15 August to Monday 17 August.
