

**ENDORSEMENT  
CITY & SOUTHWEST ACOUSTIC ADVISOR**

<b>Review of</b>	<b>Sydney Yard Access Bridge Construction Noise and Vibration Impact Statement (CNVIS)</b>	<b>Document reference:</b>	Construction Noise & Vibration Impact Statement (ref 0392956 F02)
<b>Prepared by:</b>	Dave Anderson		
<b>Date of issue:</b>	10 April 2018		

As approved Acoustic Advisor for the Sydney Metro City & Southwest project, I reviewed and provided comment on the Construction Noise and Vibration Impact Statement for the Sydney Yard Access Bridge works, as required under A27 (d) of the project approval conditions.

The impact statement was revised to address my comments and I endorsed Revision F02 of the statement on 7 August 2017.

I noted at the time that further noise monitoring had been carried out at 54 Regent Street since the preparation of version F02 and understood that this would be addressed in a subsequent update of the CNVIS. In the event, the CNVIS was not updated but the noise monitoring data from 54 Regent Street was used appropriately to assess out-of-hours noise impacts at that receiver. I reviewed and endorsed the out-of-hours applications and I am satisfied that the CNVIS does not need to be updated. I confirm my endorsement of Revision F02 of the CNVIS.

Dave Anderson, City & Southwest Acoustic Advisor
