Dear Adam,

RE: Endorsement of Sydney Metro – Sydney Access Yard Bridge – Archaeological Method Statement for Piling Works.

Thank you for providing the following document for Environmental Representative (ER) review and endorsement as required by the Condition of Approval A24 (d) of the Sydney Metro City & Southwest project (SSI – 15_7400 January 9 2017).

- *Archaeological Method Statement for Piling Works (11 July 2017) in compliance with CoA E17*

As an approved ER for the Sydney Metro City & Southwest – SYAB project, I have reviewed and provided comment on this document and now consider it appropriate for implementation to mitigate construction impacts to potential non-aboriginal (historic) and aboriginal archaeological deposits within the Sydney Yard at the location of piling required for installation of the Sydney Yard Access Bridge (SYAB).

Yours sincerely

Annabelle Tungol Reyes
Environmental Representative
Sydney Metro City and South West - Sydney Yard Access Bridge Project
